PRICE: $179
CME: 8 credits
FORMAT: Print & Online
MORE INFO: www.ebmedicine.net/StrokeCME
Volume II coming March 2017

Does real-world CME make a real difference?

After using EB Medicine’s specialty CME resources, your peers say they will:

... Discuss the current evidence-based recommendations for x-rays and CTs with colleagues.

... Increase the use of US in initial evals and ketamine in intubation induction.

... Activate MTP sooner.

... Continue to communicate to the trauma service that pan scanning is not the right thing to do and provide them with the literature to back this up.

... Have greater comfort in considering tPA in patients when it was previously contraindicated.

... Be more aggressive in applying therapy.

... Engage in more discussion about the controversies.

About our LLSA Study Guides, they say:

... The clear, concise review and stimulus questions are great.

... I like having the articles to read in-depth.

... Very organized.

... Makes my life easier.

... Learned a lot. Perfectly presented. Best CME provider around!!!

... Fantastic! Thank you guys.
Diagnosis And Removal. Both decisions can have consequences for the patient. It is not to explore the scrotum, and if a testicular torsion occurs spontaneously or with minor trauma. On the website.

Injuries can be caused by a direct blow to the skull. However, given that up to 27% of EVD. Given the high morbidity and mortality of this disease, clinical personnel, hospitals, and clinicians must be prepared to provide optimal patient care. An annual subscription includes print issues, full online access to archived issues, CME, and our new Points & Pearls supplement.

Price: $349 (group rates available)  CME: 48 credits  Format: Print & Online
More Info: www.ebmedicine.net/EMPInfo

Pediatric Emergency Medicine Practice is the leading evidence-based resource that gives you concise, applicable information on the management of pediatric patients. Whether you work in a pediatric ED or a general ED, knowledge of appropriate diagnosis and management of pediatric emergencies is critical to delivering optimal patient care. An annual subscription includes print issues, full online access to archived issues, CME, and our new Points & Pearls supplement.

Price: $319 (group rates available)  CME: 48 credits  Format: Print & Online

ED CLEAR™ is a blended learning program designed to reduce risk and prompt critical thinking at the point of care, when it matters most. ED CLEAR™, an enterprise solution for training of all ED clinicians, was developed to identify the core safety issues within emergency medicine and provide data-based and evidence-based tools to help you mitigate risk and, ultimately, reduce claims. Produced 6 times per year, each module includes an evidence-based article, a 20-minute instructional video to reveal and reinforce best practices, and a CME test.
