Evidence-Based Resources & Real-World CME For Clinicians

Does real-world CME make a real difference?

After using EB Medicine’s specialty CME resources, your peers say they will:

... Discuss the current evidence-based recommendations for x-rays and CTs with colleagues.

... Increase the use of US in initial evals and ketamine in intubation induction.

... Activate MTP sooner.

... Continue to communicate to the trauma service that pan scanning is not the right thing to do and provide them with the literature to back this up.

... Have greater comfort in considering tPA in patients when it was previously contraindicated.

... Be more aggressive in applying therapy.

... Engage in more discussion about the controversies.

About our LLSA Study Guides, they say:

... The clear, concise review and stimulus questions are great.

... I like having the articles to read in-depth.

... Very organized.

... Makes my life easier.

... Learned a lot. Perfectly presented. Best CME provider around!!!

... Fantastic! Thank you guys.

BEST-SELLER!
Lifelong Learning And Self-Assessment Study Guides
EB Medicine’s LLSA Study Guides include reprints of the original articles and are designed to help you ace the ABEM exams. You’ll receive a summary of key points for each article as well as sample questions, answers and explanations, and more. The 2015-2018 editions are available!

**Price:** $219 each  
**CME:** 18 credits each  
**Format:** Print & Online (Vol III also includes video & audio content)

**Pediatric Emergency Trauma Care: Current Topics And Controversies**
This new resource is the ideal trauma course for physicians who want to build on their clinical expertise for pediatric trauma patients. It includes 5 chapters, covering blunt chest trauma, drowning injuries, acute cervical spine injury, nonaccidental trauma, and orthopedic trauma in sports.

**Price:** $169  
**CME:** 18 credits  
**Format:** Print & Online

**High-Risk Emergencies: Greatest Hits & Misses**
This multimedia CME program gives you evidence-based education that improves outcomes for patients and reduces risk for you. It focuses on 6 of the highest-risk presentations and complaints you face in the ED: aortic dissection, appendicitis, TIA and stroke, spinal epidural abscess, testicular torsion, and traumatic brain injury. You also get 27 CME credits, including 3 Risk Management credits, 4.5 Trauma credits, 4 Stroke credits, 2.5 Pharmacology credits, 1 Pain Management credit, and 4 Neurology credits.

**Price:** $169  
**CME:** 27 credits  
**Format:** Online (video + audio + articles)

**Acute Traumatic Pain Management in the Emergency Department**
This digital course helps you earn pain management and trauma CME. You will learn to: indicate the relative advantages/disadvantages of several pain management techniques, assess strategies to evaluate and treat pain in difficult situations, and apply nonpharmacologic means of acute traumatic pain management.

**Price:** $99  
**CME:** 4.5 credits  
**Format:** Online

**EXAM PREP**

**Lifelong Learning And Self-Assessment Study Guides**
EB Medicine’s LLSA Study Guides include reprints of the original articles and are designed to help you ace the ABEM exams. In addition to a handy summary of key points for each article, you receive sample questions, answers and explanations, and more. The 2015-2018 editions are available!

**Price:** $219 each  
**CME:** 35 credits each  
**Format:** Print & Online

**QUICK READS**

**Critical Care Management Of Bleeding Disorders**
This best practices guide covers emergency management of coagulopathy in acute intracranial hemorrhage, resuscitation of the patient with massive upper GI bleeding, and the use of blood products in critically ill patients.

**Price:** $89  
**CME:** 9 credits  
**Format:** Online

**Airway Management In Trauma**
This online resource reviews how to avoid hypotension during intubation, advantages and disadvantages of direct vs video laryngoscopy, choice of induction agents in RSI, when cricoid pressure, rescue devices, and cricothyroidotomy should be used, and more.

**Price:** $59  
**CME:** 2 credits  
**Format:** Online

**Traumatic Brain Injury: Acute Management Update**
This online resource reviews the initial approach to brain injury, management of patients with elevated intracranial pressure, performance of secondary surveys and imaging studies, and more.

**Price:** $59  
**CME:** 2 credits  
**Format:** Online

**Brief Resolved Unexplained Events: What The Emergency Clinician Needs To Know**
This online resource will help you develop a strategy to identify and manage low-risk infants who present to the emergency department after a brief resolved unexplained event (BRUE, formerly known as ALTE) based on the 2016 AAP guidelines.

**Price:** $59  
**CME:** 3 credits  
**Format:** Online
Emergency Medicine Practice, published 12 times per year in a multi-media format, provides diagnosis techniques and treatment recommendations that can be applied immediately and reliably to your practice. Written by practicing, experienced ED physicians, Emergency Medicine Practice can boost your clinical confidence, refresh your memory of the fundamentals, and keep you abreast of the most relevant updates in emergency medicine.

An annual subscription now includes print issues, full online access to archived issues, CME, and so much more! You also receive our exclusive Points & Pearls supplement (a 2-page digest of each issue), the companion podcast (EMplify), and our new Calculated Decisions supplement (including links to MDCalc’s risk scores and calculators you can use in real time!).

Price: $349 (group rates available)  CME: 48 credits  Format: Print, Online, & More

Pediatric Emergency Medicine Practice is the leading evidence-based resource that gives you concise, applicable information on the management of pediatric patients. Whether you work in a pediatric ED or a general ED, knowledge of appropriate diagnosis and management of pediatric emergencies is critical to delivering optimal patient care.

An annual subscription now includes print issues, full online access to archived issues, CME, and so much more! You also receive our exclusive Points & Pearls supplement (a 2-page digest of each issue), the companion podcast (EMplify Pediatrics—coming soon), and our new Calculated Decisions supplement (including links to MDCalc’s risk scores and calculators you can use in real time!).

Price: $319 (group rates available)  CME: 48 credits  Format: Print, Online, & More

“EB Medicine’s journals are one of the best investments you can make in developing yourself as a knowledgeable physician in a clinical environment. Their resources are very thorough, and it is wonderful getting all you can learn from a well-written article. I’ve used EB Medicine for over 10 years and really do enjoy it. They’re authoritative, well written, and timely. I have always been considered a well-read doctor because of these journals.”

— JOSEF APONTE, JR, DO
Save As a Group!

EB Medicine has special deals for group practices, hospitals and health systems, academic medical centers, libraries, and other institutions with 10 or more clinicians who want our resources and CME. With a group subscription, you can realize the benefits of having uniform, consistent training tools; CME reporting, by clinician, when and how you want it; and a resource your clinicians recognize, appreciate, and value.

Here are four ways to save:
1. Substantially reduced journal subscription rates
2. Discounts on specialty CME resources and programs
3. One-stop shopping for trauma and stroke credits
4. Custom-built packages tailored to your training needs

Act now to learn more and start saving! Contact our Business Development Team at groups@ebmedicine.net or 678-336-8466 x 120.

Resident Education

EB Medicine is now offering its evidence-based journals absolutely free as a teaching tool for residency directors, residents, and students. This program gives you access to the highest quality educational tools in emergency medicine. Over 260 emergency medicine residency programs are already enrolled. Join them today!

Simply contact Kiana Collier, Resident Coordinator, at kc@ebmedicine.net or 678-336-8466 x 109 for more information or to enroll.

Partnership Opportunities

As a leader in emergency medicine education with a true commitment to professional development, we are always eager to work with like-minded organizations to enhance education and enable better clinical decision making. Please contact us if you are interested in learning more about:
- CME accreditation for your conference or educational programs
- Content licensing
- Reprints of journals or other educational content
- Custom publishing
- Sponsorship opportunities
- Other opportunities

Please contact Stephanie Williford, CEO, at sw@ebmedicine.net or 678-336-8466 x 108 to learn more.
